Of course, there is always the option to exchange your crypto for fiat at any time, regardless of the app or
platform where your cryptocurrency is stored. This is the ideal choice for individuals .

What is fiat? Fiat also called fiat money or fiat currency, which is the legal currency established in the
constitution of a country and issued and circulated by the government of that country. For example, the US
legal currency is the US dollar, and the Chinese legal currency is the RMB. Since it is a government-issued
currency that has no inherent value, the source of the value of fiat currency is that fiat currency owners believe
that currency can continue to maintain purchasing power.
