A private key is like a password a string of letters and numbers that allows you to access and manage your crypto funds. When you first buy cryptocurrency, you are issued two keys: a public key, which works like an email address (meaning you can safely share it with others, allowing you to send or receive funds), and a private key, which is typically a string of letters and numbers (and which is not to be shared with anyone).

Under the rules, a pattern day trader must maintain minimum equity of \$25,000 on any day that the customer day trades. The required minimum equity must be in the account prior to any day-trading activities. If the account falls below the \$25,000 requirement, the pattern day trader will not be permitted to day trade until the account is restored to the \$25,000 minimum equity level.
